

## Functionality tests “Projet Equipe”

By Nikolas N Tsialdaridis

### **1. User “formateur” case scenario for Login page “inviteFormateur”**

In order to use the application  
As a user “Formateur”  
I want to be able to login

#### **Scenario Login – all required user data submitted correctly :**

I’m “formateur” and register when I fill my username and password only  
Given I am on the registration page “accueil”  
And I register with username "michel" and password "plasse"  
When I submit the form  
Then I should land on “inviteFormateur” page

#### **Scenario Login 2 – user omit password :**

I have not submitted required login information  
**Given** I am on the registration page and I omit my password for textbox “password”.  
**When** I submit the form  
**Then** The page show message “Votre mot de passe !”

#### **Scenario Login 3 – user omit username :**

I have not submitted required login information  
**Given** I am on the registration page and I omit my username "michel" for textbox “username”.  
**When** I submit the form  
**Then** The page show message “Votre nom !”

## 2. User “formateur” case scenario for creating a project on user page “inviteFormateur”

Once I have logged in the application  
As a user “Formateur”  
I want to be able to create a project

### Scenario project creation 1: Project creation– all required project’s data submitted correctly :

**Given** I am on the “inviteFormateur” page and I have submitted the all required information on:

Titre :   
Sujet:   
Date limite de rendu :

**When** I submit the form

**Then** The page show message “Bravo le projet est crée !”

### Scenario project creation 2: Project creation– some project’s data information is omitted :

**Given** I am on the “inviteFormateur” page and I have not submitted some required project’s information

**When** I submit the form

**Then** The page show error messages and I stay on page “inviteFormateur” :

For « Titre » error message « *Votre projet doit avoir un titre* »

For « Sujet: » error message « *Ajouter une description à votre projet* »

For « Date limite de rendu » error message « *La date de fin de votre projet !*»

### **Scenario – Etudiant 1- join a project :**

**Given** I am on the “inviteEtudiant” page and I can :

- See the all projects I’m participating in
- See the all projects from all graduation years that I’m not participating in
- I can click on - choose a project from project link

**When** I choose – click on project link , I can see the project page with:

- Project presentation, name, start date, end date, project creator , project teams and their members, and I can click on button named “ Joindre le projet”

**Then** If I’m not already a member, I land on page “Creation projet”

**OR**

**Then** If I’m already a member the page show error messages “ Vous êtes déjà membre”

### **Scenario Etudiant - - creating a team 4:**

**Given** I am on the “Creation projet” page and I can see

- Project presentation, name, start date, end date, project creator , project teams and their members, and I decide to create a team after submitting project name in textbox “ nom projet”

**When** I click on button “Créer votre équipe”

**Then** I land on page “page Projet” where I can see:

- Project presentation, name, start date, end date, project creator , project teams and their members, and I decide to create a project after submitting project name in textbox “ nom projet” and students available – not engaged in this project

AND

My own team, team name and my name and sire name as creator of the team

### **Scenario Etudiant – choosing –selecting members for my team:**

**Given** I am on the “page Projet” page and I can see:

- Project presentation, project’s name, start date, end date, project’s creator , project’s teams and their members, available participants that do not participate in any team of this project, *and I decide to add participants to my team*

**When** I click on participant name

**Then** I land on updated page “page Projet” where I can see:

- Project presentation, name, start date, end date, project creator , project teams and their members, and I decide to create a project after submitting project name in textbox “ nom projet” and students available – not engaged in this project

AND

My own team, team name and my name and sire name as creator of the team

AND the name of the chosen by me participant added in my team

PSS: La partie scenario de login “étudiant” n’est pas demandée par M.Plasse
